WHO WE ARE

At **Yamuna Cement Products**, we are committed to delivering high-quality cement and concrete solutions with reliability, durability, and precision. Established in **2016** in Chikhli, Navsari, we have grown into a trusted name in the industry, serving residential, commercial, and infrastructure projects across the region.

With a strong focus on quality manufacturing and customer satisfaction, we specialize in a wide range of products including **RCC Fencing Poles, Cement Poles, Fence Poles, Concrete Door Frames, and Concrete Cover Blocks**. Every product is manufactured using quality raw materials and modern production techniques to ensure long-lasting performance and strength.

Our dedicated team works with professionalism and efficiency to meet diverse customer requirements while maintaining consistent quality standards. Backed by years of industry experience, timely service, and a customer-first approach, Yamuna Cement Products continues to build lasting relationships based on trust and excellence.

We strive to deliver dependable products that contribute to

Stronger Foundation

Secure Boundaries

Durable Construction Solution

OUR CORE VALUES

At **Yamuna Cement Products**, our core values are rooted in quality, reliability, integrity, and customer satisfaction. We are committed to delivering durable construction solutions through modern manufacturing, timely service, and a dedicated team focused on trust, excellence, and long-term value.

OUR MISSION VISION

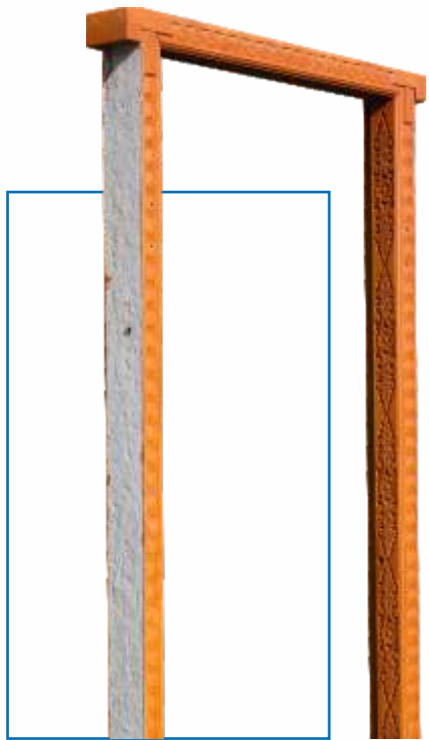

Our mission is to deliver high-quality, durable, and reliable cement and concrete products that meet the evolving needs of the construction industry, while ensuring customer satisfaction through excellence and timely service.

Our vision is to become a trusted leader in the industry by continuously improving our manufacturing standards, embracing innovation, and building long-term value through quality, trust, and sustainable growth.

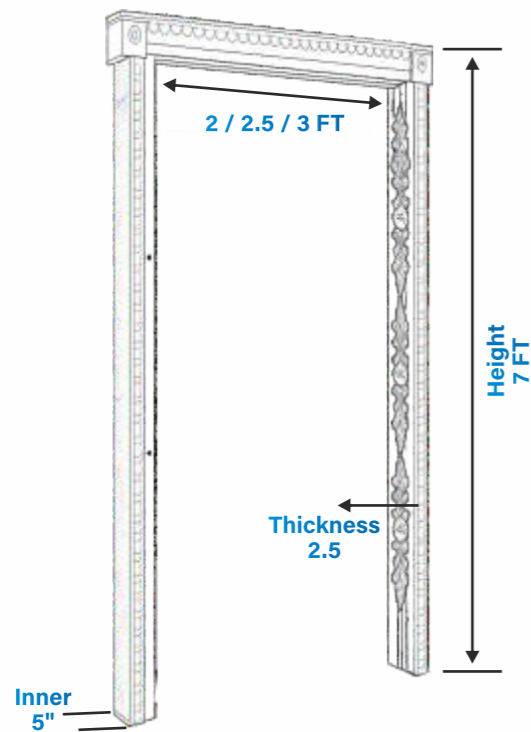

DOOR FRAMES

Yamuna Cement Products offers high-quality RCC Door Frames designed for strength, durability, and long-lasting performance. Manufactured using premium-grade reinforced materials, they are resistant to termites, moisture, corrosion, and weather damage. Ideal for residential, commercial, and industrial projects, these door frames provide excellent stability, easy installation, and low maintenance.

MARKING KHUTI

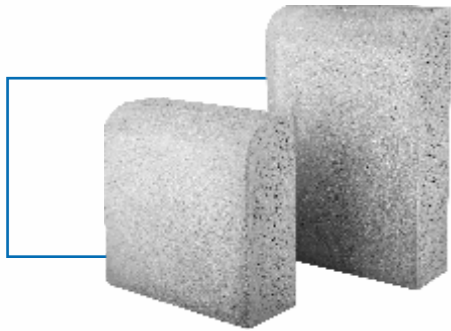

THAMBLI RUBBER MOULD

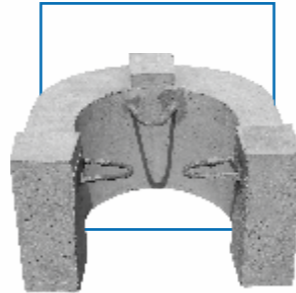

KERB STONES

Durable and precision-made Curb Stones designed for road edging, landscaping, and pavement protection. Manufactured using high-quality materials, they offer excellent strength, weather resistance, and long-lasting performance for pathways, gardens, parking areas, and roadside installations. Their sturdy construction enhances safety, durability, and visual appeal.

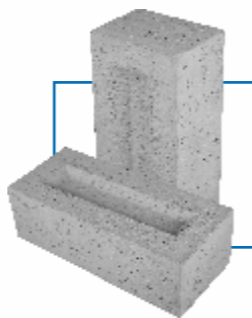

Curb Stone		
Width (mm)	Height (mm)	Thickness (mm)
300	300	100
300	450	100
600	300	100
600	375	150

Weight - 17.600Kg

CHULA ROUND

Durable Round Chula designed for efficient heat distribution and long-lasting performance. Manufactured using high-quality materials, it offers excellent heat resistance, stability, and durability for traditional cooking applications. Its sturdy construction ensures low maintenance and reliable performance for residential and commercial use.

BRICKS

Width (inch)	Length (inch)	Thickness (inch)
4	9	3

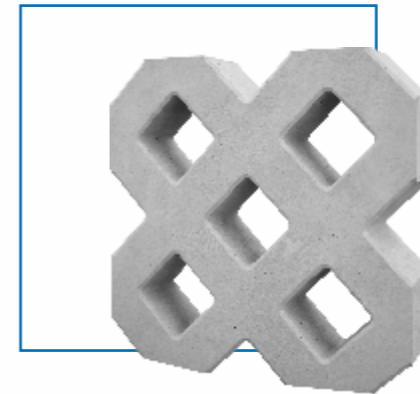

Strong and durable Bricks designed for reliable construction and long-lasting performance. Manufactured using quality materials, they offer excellent strength, uniform shape, and superior load-bearing capacity for residential, commercial, and industrial projects. Their durability and weather resistance ensure strong foundations and lasting structural stability.

GRASS PAVER

Durable and eco-friendly Grass Pavers designed for ground stabilization, water drainage, and modern landscaping. Manufactured using high-quality materials, they offer excellent strength and load-bearing capacity for parking areas, pathways, gardens, and outdoor spaces. Their unique design supports natural grass growth while enhancing durability and aesthetic appeal.

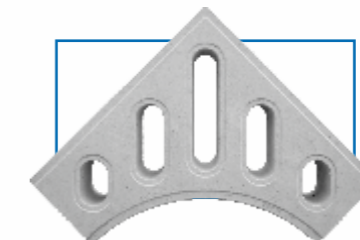

Grass Paver
250 X 250mm (10' X 10') 80mm
400 X 400mm (16' X 16') 80mm

TREE GUARD

815 x 815 mm
(Thickness - 80mm)

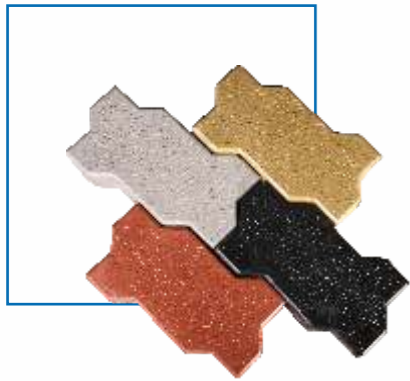

Durable and sturdy Tree Guards designed to protect plants and young trees while ensuring healthy growth. Manufactured using high-quality materials, they offer excellent strength, weather resistance, and long-lasting performance. Their robust construction provides reliable protection and enhances the appearance of outdoor spaces.

PAVER BLOCKS

High-quality Paver Blocks designed for strength, durability, and attractive outdoor flooring. Manufactured using premium-grade materials, they offer excellent load-bearing capacity, weather resistance, and long-lasting performance for pathways, driveways, parking areas, and gardens. Available in various designs to enhance functionality and aesthetic appeal.

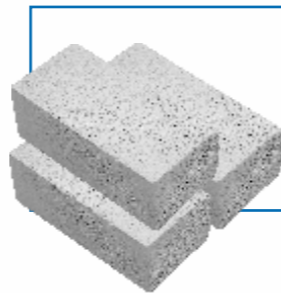

Paver Block
Zig-Zag (60mm)
Zig-Zag (80mm)
Zig-Zag (100mm)
8 X 8 (60mm)
8 X 8 (80mm)
8 X 4 (60mm)

SOLID BLOCKS

Width (mm)	Length (mm)	Thickness (mm)
180	390	140

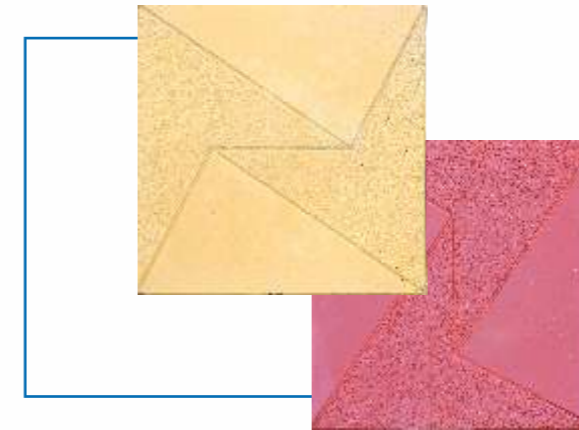

High-strength Solid Blocks designed for durable and reliable construction. Manufactured using premium-quality materials, they offer excellent load-bearing capacity, dimensional accuracy, and long-lasting performance for residential, commercial, and industrial projects. Their robust structure ensures superior stability, weather resistance, and quality construction.

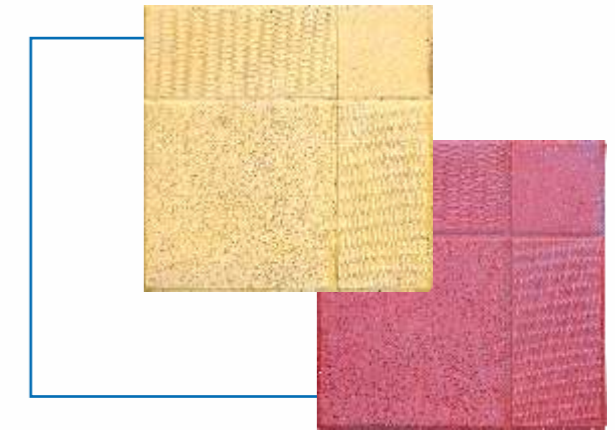

TILES

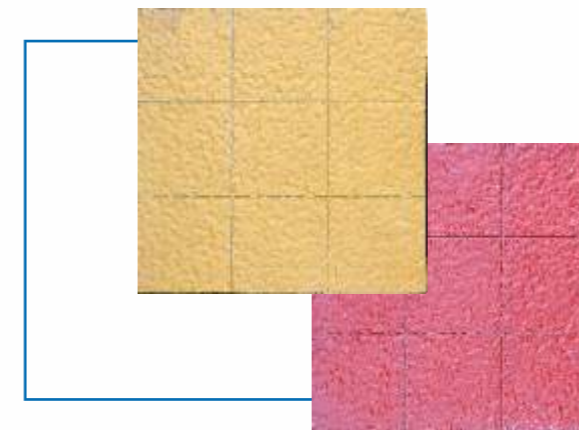

Premium-quality Tiles designed to enhance durability, elegance, and modern architectural appeal. Manufactured using high-quality materials for superior strength, smooth finishing, and long-lasting performance, making them ideal for residential, commercial, and outdoor applications. Available in various designs, patterns, and finishes to complement stylish and functional spaces.
